PARENT PERMISSION SLIP

GROWTH & DEVELOPMENT

Parent/Guardian Consent Letter

Date: _____

Dear Parent/Guardian,

Your child will be studying the subject of human growth and development at our school. The content of the course has been carefully prepared and is designed for the comprehension level of your child. This unit is part of a total Comprehensive Health Education program we provide to our students. The district-approved resources include:

- Health Smart, reading and worksheet pages
- The Puberty Workshop: What is Puberty, video and worksheets
- The Puberty Workshop: Boys and Puberty, video and worksheets
- The Puberty Workshop: Girls and Puberty, video and worksheets
- Being Healthy: Human Growth and Reproduction, reading and worksheet pages
- A Teenager's Story: I Have AIDS by Ryan White, video

The human growth and development unit will include the following information:

- stages of growth from birth to adulthood
- male and female reproductive systems
- bodily changes that occur during puberty
- hygiene during puberty
- social and emotional changes that occur during puberty
- responsibilities associated with growth and development
- HIV/AIDS awareness

The primary goal of this unit is to provide students with a better understanding of themselves and others. This knowledge will help them develop a sense of responsibility and respect for the feelings and attitudes of other people. The combination of the information and open discussion of student questions will do much to correct any misinformation students may have about this subject. As a parent/guardian you may wish to further clarify or elaborate on topics that your child may ask about at home. Also, as your children grow and develop, it is important for you, the parent, to continue educating them on the facts and responsibilities of human growth and development.

Sincerely,

You must check the box that reflects your expectation.

I desire my son or daughter

to participate
